7.2 Sport Clubs

If your children are interested in joining a sport club, the school sport teacher would be happy to assist you in finding and contacting the right club.

The school's After School Activity Program offers some sporting activities, including soccer and basketball.

An excellent way to encourage your children's German language competency is to join a sport "verein" (club). Generally the sport ("fussball", swimming, badminton, tennis, etc.) runs all year, with breaks for school holidays. Some sports are more competitive than others within towns. Some clubs are more competitive than others. By asking questions of the coaches or "trainers", you can determine whether this will be a good fit for your child. Additionally, you can usually "try out" the club before joining. Most towns offer enough variety so that children can usually find a sport that they like.

7.6 Music Teachers and Music Schools

The school runs an extensive after school music program, with flute, clarinet, saxophone, guitar, violin, piano and drums being taught. New classes will be added if there is sufficient demand and teachers are available. Contact the music teacher.

Additionally, almost all towns have a Musikschule. Looking in your local phone book or local newspaper will help you to find the phone number and location of the school nearest you. Generally speaking, you can register anytime and students begin during the Fall, after Christmas or Spring/Summer term. The Musikschule offers classes from Kindergarten to Advanced in most instruments.

7.7 Drama

The school sometimes offers drama classes as part of the After School Activities Program.
